NORTH OF OGDEN

## NO TARIFF RATES ALLOWED

HARRIMAN PEOPLE MONOPOL-IZE THE TERRITORY.

The Utah Fuel company will send no more coal to points north and west of Ogden after Sept. 1. The fuel company has been notified by the Harriman people that the coal tariff rates to points north and west of Ogden have been cancelled, the order to go into effect on the date named. This means that the coal and coke of the Utah company is to be shut out of Idaho, Montana and Nevada; and that this terrifory is to be supplied henceforth with coal from the mines along the lines of the Union Pacific and Oregon

Short Line,
A rominent Short Line official familar with the facts said last evening:
"The object of this new move is simply to reserve our own territory for our
own coal. The Short Line and allied
lines cannot see the wisdom of throwing their territory epen to competing
companies and surrendering their territory to companies. tory to competitors when they are in a position to supply all the coal needed themselves. For this reason the Utah Fuel company is to be shut out. No rates will be given of any kind. It simply means that the coal of this company is to be kept out of territory that pany is to be kept out of territory that

belongs wholly to our people."
Officials of the Utah Fuel company
and the Oregon Short Line consulted last evening were not in a position to give figures as to the tonnage of coal affected by this new order. But it is a well known fact that for years the Utah company has been supplying immense quantities of coal to the Southern Position for consumption west. ern Pacific for consumption west of Ogden, and for the Short Line north of that point. Most of this supply will come in the future from Kemmerer and other points along the Union Pa-

### ALL BOARD GUAGE.

Great Rio Grande Western Improvement Planned. entire narrow gauge system of

The entire narrow gauge system of the Rio Grande railroad is to be broadgauged, according to the Denver Post. To determine the feasibility of the proposed improvement, Traffic Director A. C. Bird of the Gould roads has been spending the past ten days in a trip of inspection over the narrow gauge system with General Traffic Manager A. S. Hughes. He arrived in Denver this morning in his special car, and is stopping at the Brown. Tomorrow morning he will leave for Chicago, and will re-port that the proposed improvement is not only practical but really necessary. Following Mr. Bird's report, George Gould is to make a personal trip over te Rio Grande system, after which the

provements are to take place. It is imated that it will cost between 000 and \$600,000 to broad gauge the w lines in the San Juan district, jording to Mr. Bird, the labor dif-affices in Colorado are considered to about at an end, and he estimates be about at an end, and he estimates that the mining output in the vicinity of Silverton, Ouray and other camps along the narrow gauge system will be doubled and that the Rio Grande will handle a proportionate increase of traffic. The feeling throughout the mining camps, says Mr. Bird, is hopeful. Both sides seem to be eager for a settlement and each willing to put his shoulder to the wheel and work for the common. to the wheel and work for the common

gauge the entire Rio Grande system took a downward jump the carrying out of the plan was pestponed.
Although the Rio Grande's earning
for the present year will show a de
crease, Mr. Gould is hopeful, consider ing the Rio Grande one of the best properties in the entire Gould system, when conditions are normal.
